csucishop.com

Every semester the Cove Bookstore reaches out to faculty and staff to collect textbook requests for upcoming terms. Gathering course materials is one of the single most important tasks that the bookstore takes on. We know how important keeping course materials affordable is and when the bookstore has accurate information entered for courses that students are enrolled in that helps to keep the cost of course materials as low as possible for our students. With that in mind, the bookstore strives to have information on 100% of the courses offered at CSUCI by the time students are able to enroll in classes for a given semester.

[I have no materials to adopt for this course](#)

Discover for this course

- Enter the 13 digit ISBN & hit "adopt."
- ISBN is usually printed on the back of the textbook in the lower corner.

- No textbooks? Select "I have no materials to adopt for this course".

- Please email the bookstore to have a course set to "OER material required."

- Course material information is then sent to the bookstore and will display as 'pending' until the request has been reviewed. Once processed, the status of the material will show as "adopted."

- Course materials will be listed as "required" by default. They may also be listed as "recommended" or "choice." This can be changed by clicking on the title in question. This will take users to a detailed view of the book, where the use of materials may be adjusted.

Psychology: Concise Introduction

5 Edition, book

Format: Paper
Author(s): Griggs
Publisher: Macmillan

ISBN-13: 9781464192166
DIGITAL ISBN-13: 9781319059194
ISBN-10: 1464192162

Description: This exceptionally concise volume offers a rich survey of the field's fundamental research and concepts at an unbeatable price—just \$41 net! And that price includes LaunchPad, a robust, carefully developed supplements package for students and instructors, if the instructor requires it. No other text/media resource for the course offers such an attractive combination of authority and affordability. Richard Griggs has updated the book throughout, especially in the chapters on neuroscience, sensation and perception, learning, social psychology, and abnormal psychology—all while maintaining the book's trademark brevity. New media option—Achieve Read & Practice, combining a complete eBook with LearningCurve adaptive quizzing. For more, see New to this Edition.
